New exciting colors for indoor or outdoor applications.

This is galvanized steel wire. Available in different colors (Black, blue, gold, red, green, fluorescent orange and transparent. The nylon covered wire is available in black green blue and red.

We stock 19 gauge in black (Nylon), blue, gold and red . 18 gauge green (Metalobind) and 16 gauge black nylon.

Other colors, wire gauges and styles are a non stock item at this time and we require a leadtime of approximately 3-4 weeks.

19 gauge wire can be produced from 3/16 to 5/8 coil diameter.

Two and three color combinations are available as well.
